

## Raceland 24 Hour Diamond Endurance Race

Fantastic team karting event based around a 24 hour non-stop race, similar in fact to the Le Mans 24 hour car race. Up to 30 teams on the grid will be racing brand new 70mph karts around the international size outdoor karting circuit at Raceland. Teams only stop racing; to change drivers, or get re-fuelled, or for a quick mid-race service of the kart.

This is a hire-kart only event, with everything supplied and inclusive in the price. We look after all the team karts and provide all the racewear required. The total race distance covered by the top teams will be somewhere around 750miles, almost Edinburgh to London and back, in a kart - always a memorable experience for participants!

Raceland has previously organised four 24hr Diamond Endurance Races; in 1997, 1998, 1999 & 2000 and Tom, Janice & the Raceland team think 2012 would be a good year in which to re-instate this very special event, - giving us all something a bit special to look forward to, to enjoy, and to remember over the years. It will also offer an excellent opportunity to raise some charitable funds for the Royal Hospital For Sick Children (Edinburgh), who we have supported at previous Raceland events.

The nature of this event means that it really is very much geared to arrive and drive teams, where everything required for the event is inclusive in the price.

Raceland will provide a brand new hire kart for every team, and will service and maintain the kart throughout the event (in fact teams are not permitted to do anything to their karts apart from adjust seats and/or pedal set up for driver comfort). Raceland will provide all racewear required for the event, including individual karting racesuits, crash helmet and gloves - plus a wetsuit if required.

Raceland Diamond circuit is a 930 metre fully floodlit tarmac outdoor circuit, with a lap time of just over 60 seconds for the fastest drivers. The karts are Sodi 270cc that are very easy to operate, even for fairly novice drivers, and respond superbly around this circuit when driven smoothly.

Parking on-site will be limited strictly to 5 car spaces per team. If your team wishes to bring a large van or caravan then those vehicles, plus all the other team cars, must fit in the 5 car space allocated to your team.

An indoor area is available to teams when relaxing between drives, with tables and chairs, race monitors, and easy access to Jan's

Diner. There will even be a hot tub within the drivers area in which to ease the aching muscles between drives if you wish.

Race Monitors will be positioned in various places keeping everyone absolutely up to date with race positions and times; in the drivers rest area, in Jan's Diner, and in the drivers cabin alongside the outdoor circuit. We will also be updating race positions every hour on the Raceland website throughout the event, so friends and family back home can watch your progress.

Jan's Diner is open throughout the event, offering a wide range of tasty hot and cold snacks and beverages, all at very reasonable prices. We do not allow on-site barbecues or open fires or outdoor cooking under any circumstances.

Teams will get 1 hour practice/qualifying on Saturday morning prior to the race. However additional team practice can be purchased for Friday afternoon if you wish to make use of that. Additionally there will be discounted practice sessions and discounted one-off race events available to 24 hour teams in the lead up to the race.

## Team Entry

Entry forms including full itinerary, plus detailed rules and regulations are available on request if you are interested in organising a team. The 30 places on the grid will be available on a first-come first-served basis, and a completed entry form and 50% deposit should be submitted as soon as possible to guarantee your team a place on the grid for this very special event – the Raceland 24hr Diamond Endurance Race 2012.

You can download our event brochure information from our website – [www.raceland.co.uk](http://www.raceland.co.uk)
